Dear Sir,

It has come to my attention that the NAB has submitted petition 04-160 to the FCC to limit "locally oriented" information from XM radio stations. This is just another attempt by Clear Channel and other rather large corporate giants to "CONTROL" what I hear and when I hear it.

I benefit from listening to XM Satellite Radio and its traffic and weather channels. XM radio provides a variety and quality, which I pay for, that cannot be found anywhere else. The National Association of Broadcasters do not care about anything but the bottom line. The listeners wants and desires are not considered and phone calls to complain about broadcasting decisions that are forced upon you are NEVER!!!!!!!!!!!!!! returned.

I request the FCC reject the NAB's petition 04-160 and support XM's ability to provide the excellent service to it's customers.
